

Deba Brothers is renowned for its commitment to high-quality systems, aimed at providing optimal conditions for animals while minimizing energy consumption. Our latest innovation introduces a new generation of wall-mounted EC fans, setting unprecedented benchmarks in performance, energy efficiency, and wind resistance.

Green Fan is very energy-efficient and ensures a minimum energy consumption to exhaust air from the livestock houses.

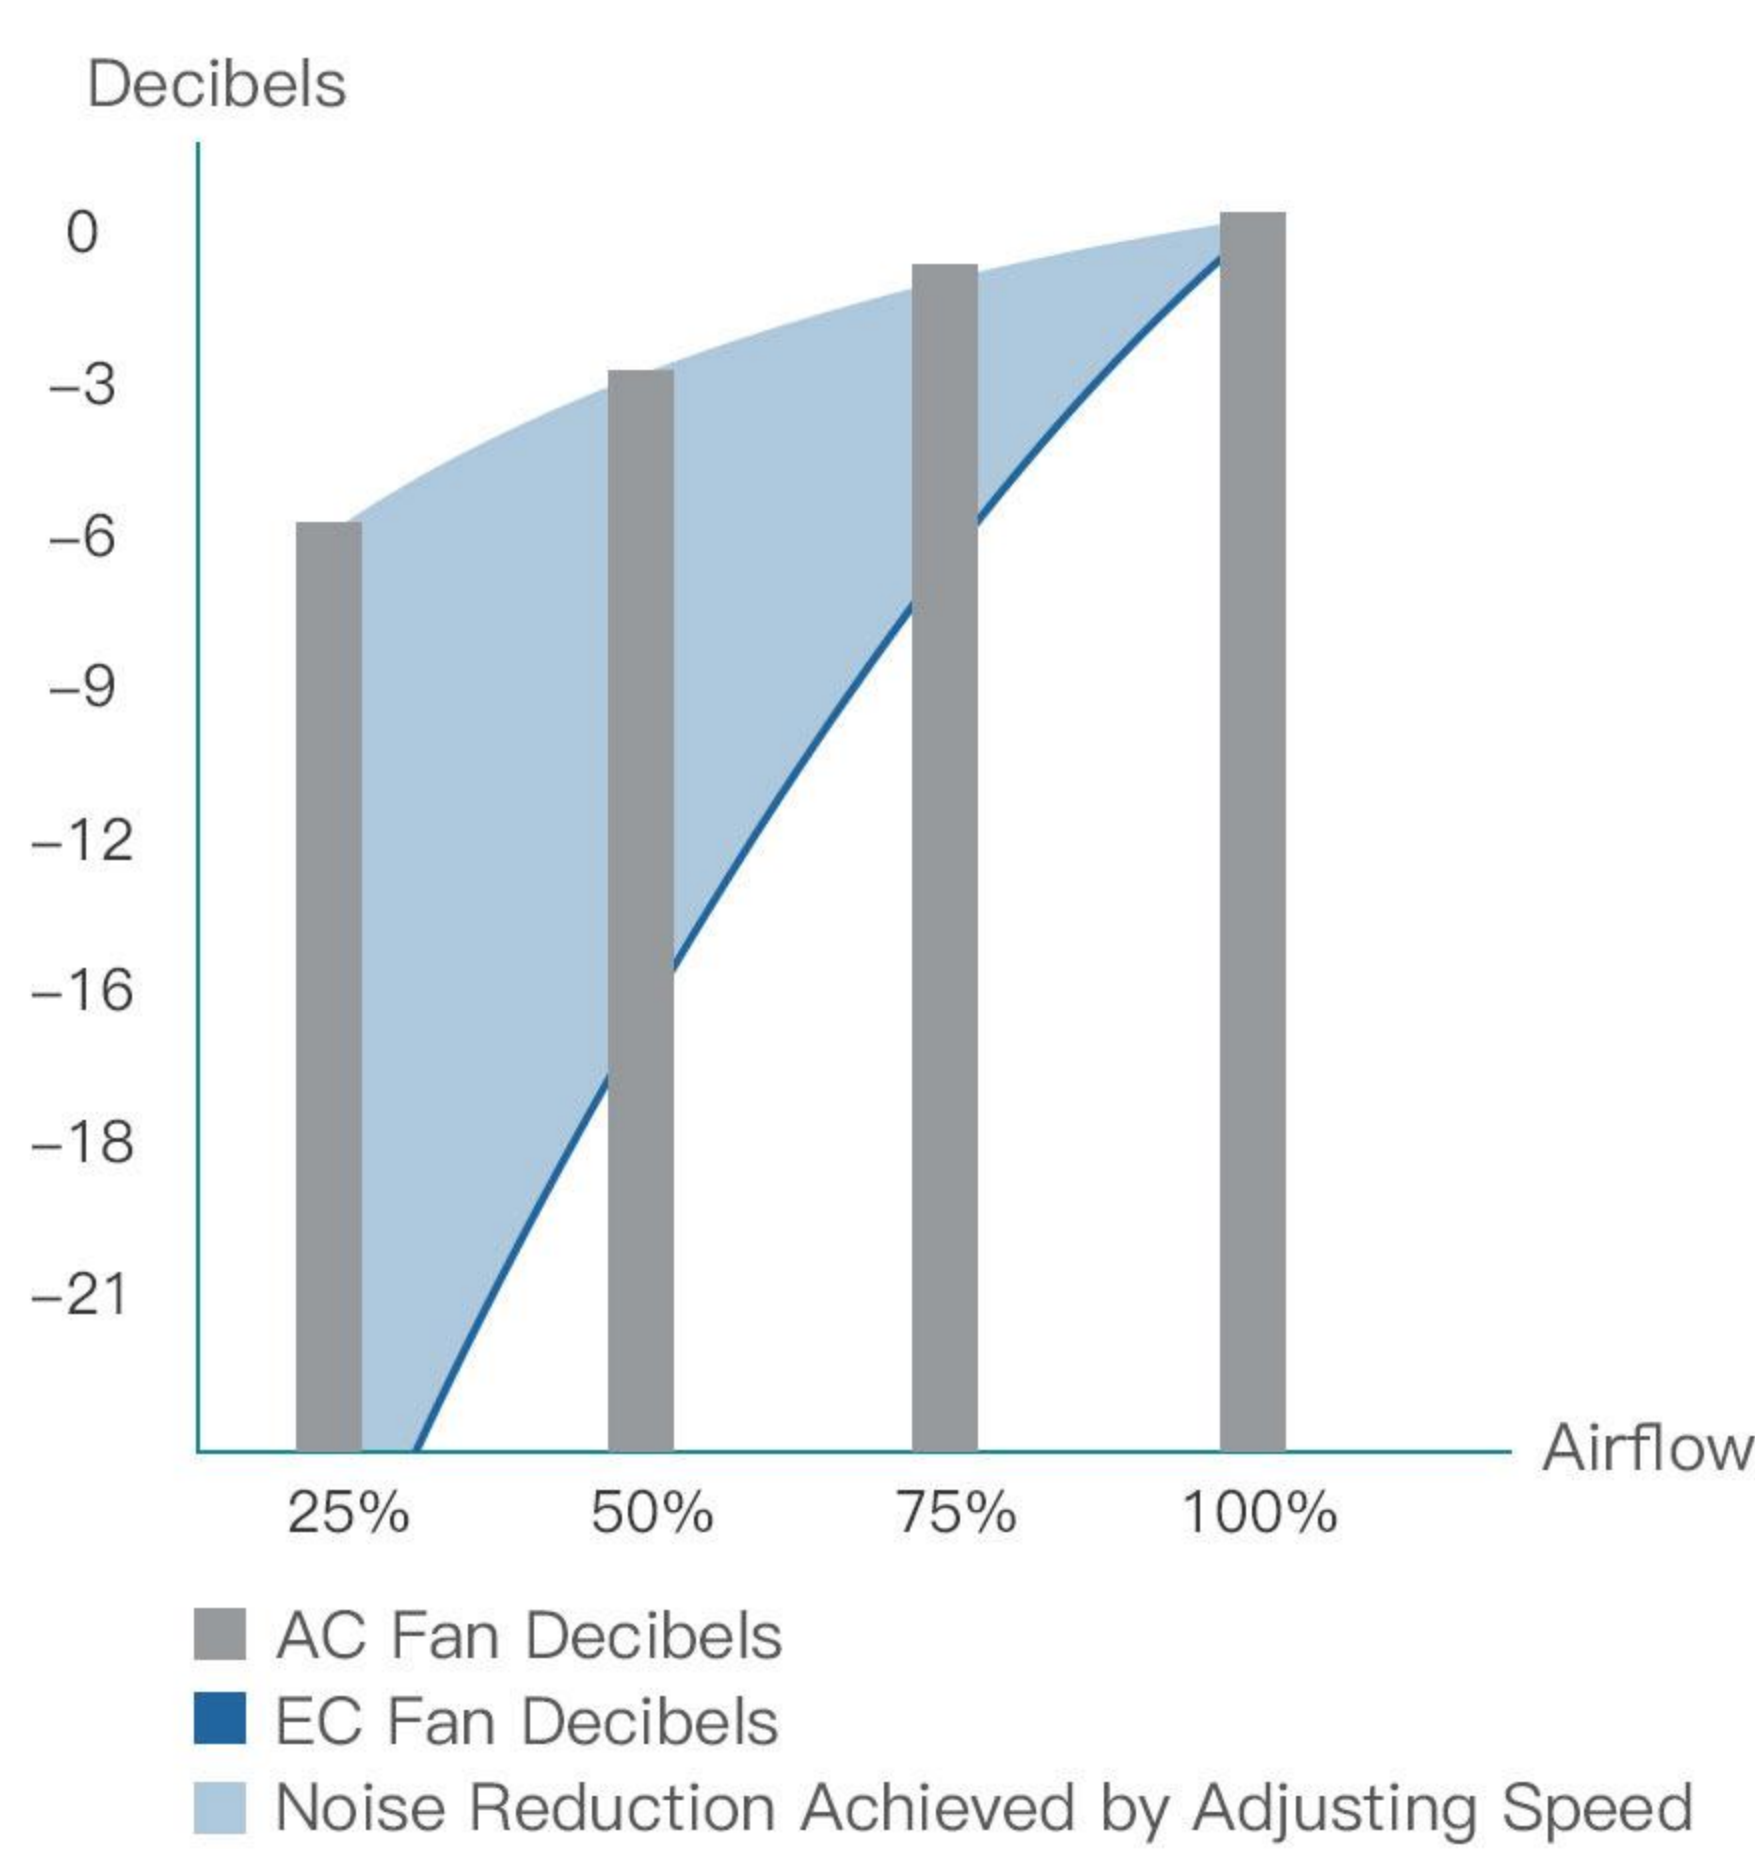

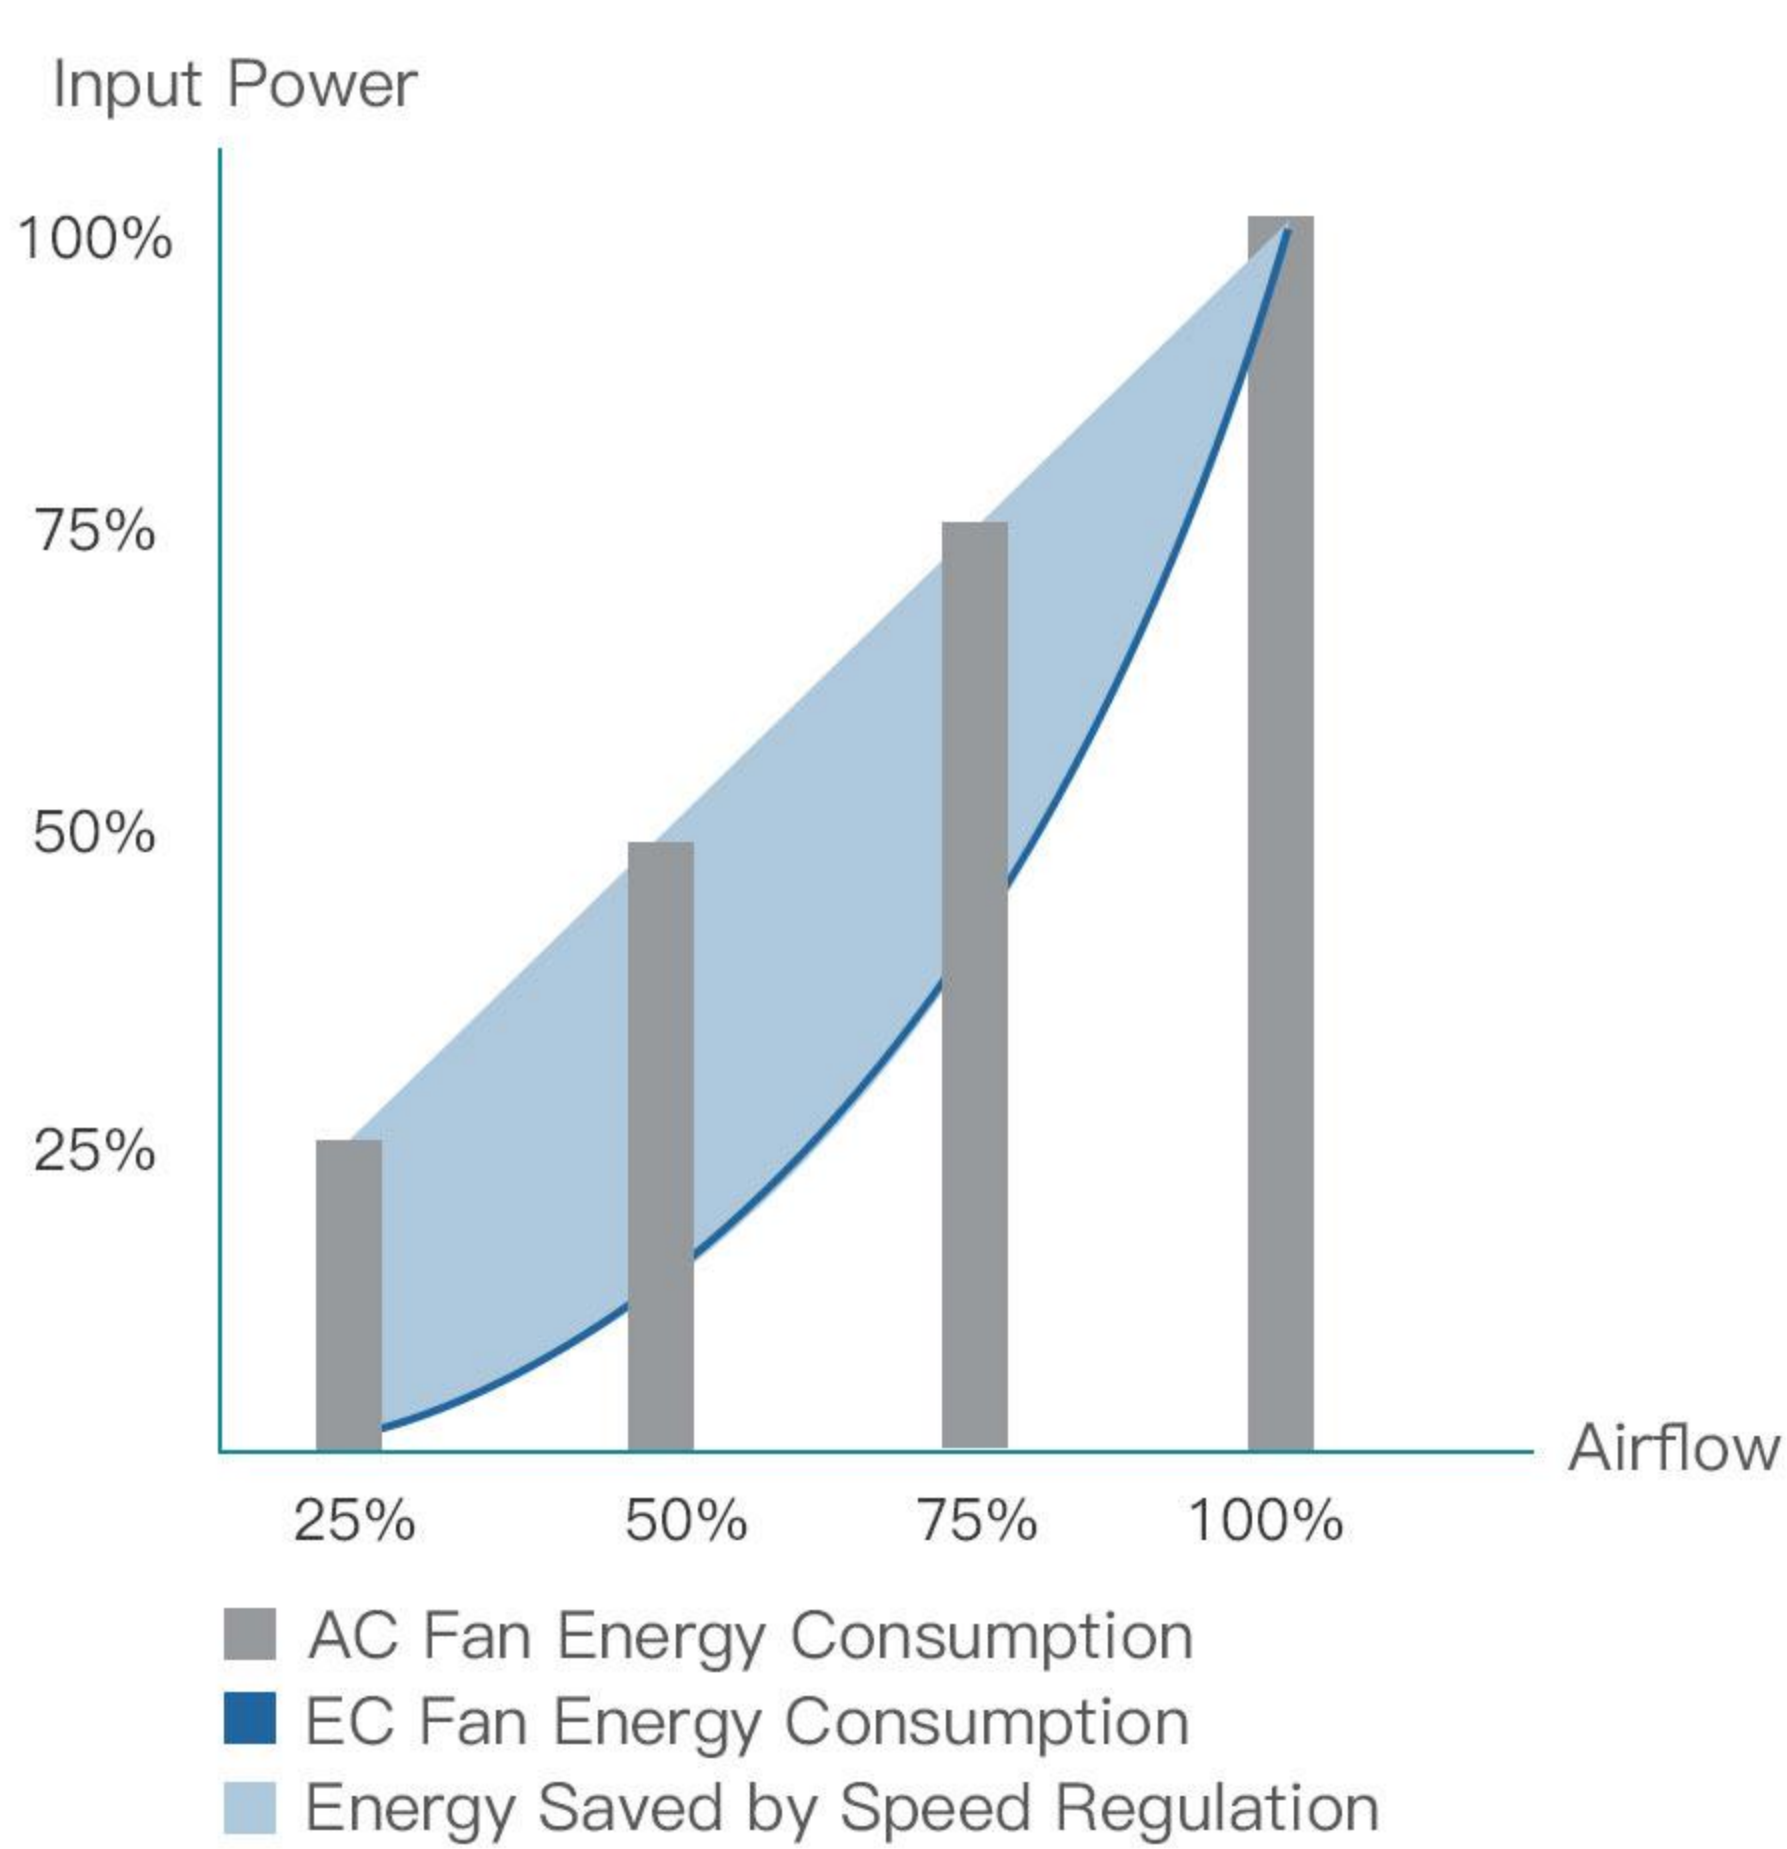

The pressure-stable design ensures that the fans run optimally, also in windy weather. Green Fans allow a combined operation to be even more energy-efficient – Dynamic MultiStep. It lowers the utility bill and ensures a fast return on investment.
