

Solid bar gestation stall

High quality Solid bar gestation stall is offered by China manufacturers Deba Brothers®. Gestation crate regulate sow activity space and control, can effectively reduce the number of pigs required, and maximize the use of pig house space. The product use the whole hot galvanization craft, and service life is more than 20 years. Deba brother company's new steel tube gestation stall features a reversible rear door design similar to the classic farrowing crate. The rear door can be turned up to widen the aisle by 420 mm, which not only allows the pigs to have room for movement, but also facilitates the staff to chase pigs and other work activities.

Product Description

Deba Brothers® is a leading China Solid bar gestation stall manufacturers, suppliers and exporter. The solid bar gestation stall produced by Deba Brothers® has relatively stronger corrosion resistance. The sow can open and close the solid bar gestation stall independently. This solid bar gestation stall is made of stainless steel, which has a long service life and is not easy to corrode.
